Disclaimer

SolidGroup reports are not, nor should be considered, an “endorsement” or “disapproval” of any particular project or team. These reports are not, nor should be considered, an indication of the economics or value of any “product” or “asset” created by any team. Solid group do not cover testing or auditing the integration with external contract or services (such as Unicrypt, Uniswap, PancakeSwap etc’...)

SolidGroup Audits do not provide any warranty or guarantee regarding the absolute bug-free nature of the technology analyzed, nor do they provide any indication of the technology proprietors. SolidGroup Audits should not be used in any way to make decisions around investment or involvement with any particular project. These reports in no way provide investment advice, nor should be leveraged as investment advice of any sort.

SolidGroup Reports represent an extensive auditing process intending to help our customers increase the quality of their code while reducing the high level of risk presented by cryptographic tokens and blockchain technology. Blockchain technology and cryptographic assets present a high level of ongoing risk. SolidGroup’s position is that each company and individual are responsible for their own due diligence and continuous security. SolidGroup in no way claims any guarantee of security or functionality of the technology we agree to analyze.

About Solid Group

Solid Group is a blockchain consulting and auditing service provider, founded by 3 cybersecurity experts with a passion for thinking out of the box, learning, and sharing knowledge. Every project goes through a meticulous process and is viewed by at least two partners, thereby achieving a high level of credibility and professionalism. Our group is partnered with multiple organizations and launchpads that have a combined market cap of over 400 million USD.

About SolSports

SolSports is a decentralized bet-maker, tournament organizer, and NFT marketplace for the E-sports community. Built on Solana.

Create a private lobby to invite and bet against friends.

- Decentralized betting on public games.
- Copy/join in on the bets of successful betters with a proven track record.
- Decentralized tournament creation.
- Mint NFTs as a part of your tournament/game and trade them on our marketplace.
- Advertising (additional revenue generation for tournament/game creators and the DAO)

●	High severity issues	0

BEP-20's Conformance

This test checks for BEP-20's conformance.

- All the functions are present
- All the events are present
- Functions return the correct type
- Functions that must be view are view
- Events' parameters are correctly indexed
- The functions emit the events
- Derived contracts do not break the conformance

Function	Present	Type	Correct Return value	Events
totalSupply	✓	✓ view	✓	
balanceOf(address)	✓	✓ view	✓	
transfer(address,uint256)	✓	✓ external	✓	✓ Transfer
transferFrom(address, address, uint256)	✓	✓ external	✓	✓ Transfer
approve(address,uint256)	✓	✓ external	✓	✓ Approval
allowance(address, address)	✓	✓ view	✓	
name	✓	✓ view	✓	
symbol	✓	✓ view	✓	

Check Events:

- ✓ Transfer
- ✓ Approve

General:

- ✓ No external mint function
- ✓ No Volatile Code

Tokenomics

✓ Burnt Tokens Transaction 🔥:
